WE CONTROL PRODUCTION FOR QUALITY, PRODUCTIVITY AND ENERGY EFFICIENCY

Productivity Control System

The E-factory electronic factory management system provides us with real-time production control, raising productivity, enhancing efficiency and reducing wastage.

Corrective action could be taken immediately in order to minimize the negative impact of deviation from the control system.

Benefits of Advanced Technology

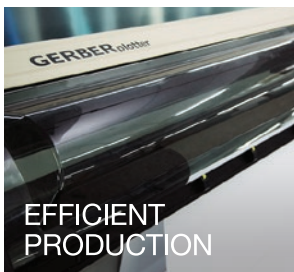

- Standardized and enhanced production quality
- Simplified operation
- Reduction in defects, rework and wastage
- Increased capacity and productivity
- Reduced space requirement
- More energy-efficient – reduced carbon emissions

NATURAL LIGHTING

RECYCLING

EFFICIENT
PRODUCTION

WE MINIMIZE OUR ENVIRONMENTAL IMPACT

We manage our operations to consume fewer resources and generate less waste/pollution, contributing to environmental sustainability.

Efficient Production

- Reduced materials input
- Reduced pollution output

Energy Saving

- Energy-efficient machinery and lighting
- Advanced water-cooled air conditioning

Working with Nature

- Use of natural light where possible
- Incorporate the hybrid electric system with the use of solar and wind energy
- Incorporate the rainwater collection system for re-using on our daily life

Recycling

- Collect, sort, clean and reprocess various materials to reduce waste

WE CARE FOR OUR PEOPLE AND THE COMMUNITY

We recognize and appreciate the efforts of our employees and other stakeholders, and care for their well-being.

Corporate Social Responsibility is a forward-thinking goal of the company and it is important to all nowadays. It embedded the sustainability into our core operations in order to create shared value for our business and society. As consumer awareness about global social issues continues to grow, so does the importance of what we are doing on the CSR.

We pursue a variety of other CSR initiatives including providing work opportunities to the handicapped, and organizing recreational activities for our employees.

WE STRIVE FOR INNOVATION, CREATIVITY AND GROWTH
