

## **PFGHL Organic Whole Chain Industry Project was recognized by Sichuan Provincial Party Committee during field investigation**

From August 25th to 26th, 2020, the Sichuan Provincial Party Committee and the Provincial Government held an on-site meeting on the construction of modern agricultural parks in the province. Peng Qinghua, secretary of the provincial party committee, stressed the significance of thoroughly implementing general secretary Xi Jinping' s instructions on dealing with issues of "agriculture, rural areas and farmers" and works in Sichuan as well as

enforcing the Party Central Committee's decision regarding the rural revitalization strategy and the provincial party committee and provincial government' s plan on the development of modern

agricultural park. He emphasized the need to focus on the construction of modern agricultural parks for promoting agricultural and rural modernization, to further fill in the shortcomings, strengthen the weaknesses in accordance with the requirements of high-quality development, and therefore achieving a significant increase in the overall level of modern agriculture in Sichuan Province, which would accelerate the process its transformation from a large agricultural province to a strong agricultural province.

On the afternoon of August 26th, the provincial meeting on the construction of modern agricultural parks was held in Nanchong city. In his speech, Secretary Peng Qinghua fully approved the achievements made in the construction of modern agricultural parks in Sichuan Province, and requested that the new situation and tasks should be further combined with the construction in a tighter, more detailed and practical manner, which would be done gradually. The ultimate goal is to achieve a significant increase in the agricultural level of Sichuan

province in all aspects through five to eight years of hard work, and make it one of the best across the country. At the same time, Secretary Peng pointed out that it is necessary to fully comprehend the significance of building a modern agricultural park under the new

situation and promote agriculture to make more contributions to the economic and social development of the province. On the other hand, in response to the new situation of promoting economic and social development under the condition of normalized epidemic prevention and control, the provincial party committee proposed for “agricultural contributions” , which aims to stabilize the agricultural fundamentals. This made accelerating the construction of modern agricultural parks the top priority of current development.

Officers from Nanchong city, Garzê prefecture, Chongzhou city, Santai county and other localities also delivered speeches at the meeting while officers of Central Agricultural Office offered guidance for the meeting.

Participants and observers of the meeting include leaders of the Provincial Party Committee, the Standing Committee of the Provincial People' s Congress, the Provincial Government, and the Provincial Political Consultative Conference, related personnel of municipalities (states) and provincial departments (units), related personnel of some of the central government units in Sichuan, related personnel from 128 county (city, district) with national or provincial modern agricultural parks, and some of the key leading agricultural industrialization enterprises.

On the same day, Peng Qinghua, secretary of the Sichuan Provincial Party Committee, led relevant personnel to the core base of the province-awarded three-star sericulture modern agricultural park of PFGHL' s Bombyx

Organic Agriculture in Tonggu Township/Tumen Town, Yilong County, for investigation. During the research, chairman of the group, Xu Ruisheng introduced the basic situation of the two wholly-owned subsidiaries of the group in Sichuan, Nanchong: Jiafeng Fashion and Bombyx Organic Agriculture. Secretary Peng and his party then expressed full approval of the group' s ongoing organic whole industry chain project and their confidence in the future development of the enterprise.

PFGL was established in 1995, headquartered in Hong Kong, with a registered capital of 1 billion Hong Kong dollars and total assets of 8 billion Hong Kong dollars. For more than 20 years, it has focused on various textile production, printing and dyeing, weaving and high-end fashion apparel processing and export. PFGL has sales networks in more than 20 countries including Australia, the United Kingdom, Italy, France, Japan, and garment manufacturing factories or cooperative factories in more than 10 cities including Shenzhen, Zhuhai, Hangzhou, and Suzhou. PFGL exports about 10 million sets of various types of clothing annually, with an output value of about \$400 million.

PFGL entered the Yilong County Industrial Park in Nanchong city back in 2013 and has set up two wholly-owned subsidiaries of Jiafeng Fashion and Bombyx organic agriculture, with a total investment of 2 billion yuan to build a whole chain industry including the process of mulberry planting, silkworm raising, silk drawing, silk weaving, dyeing, processing, garment manufacturing, and exporting. PFGL insists on environmental protection, energy saving, and organic production as the prerequisites and priorities of the enterprise, and aims to "create a bright future in which humanity, environment and productivity go hand in hand" to to create an outstanding Chinese organic clothing trademark, pushing national manufacturing towards the world.
