

## **PFGHL adheres to the original intention, light up the lamp of hope**

2020 is a special year that will last forever in history. COVID-19 is a global public health crisis that has had a devastating impact on economic, political and ethnic relations of countries around the world. During the COVID-19 outbreak, social welfare activities have attracted more attention. The whole country is united in action. Enterprises, charitable organizations and the public have participated in the action in various forms. They have become an important force in the fight against COVID-19 through various methods such as donations, assistance to the medical team and construction of a medical material process platform.

As the indispensable social and economic organization in modern life, more and more mature enterprises devote themselves to public welfare and actively assume the responsibility of creating a sustainable and beautiful society. Like other companies adhering to their commitment to social responsibility, PFGHL knows that while pursuing corporate benefits, should not forget its original intention to perform corporate social responsibility. The belief in practicing public welfare has long been integrated into PFGHL' s blood and has become an important part of PFGHL' s corporate culture.

### ➤ **Light up the lamp of hope for the new generation**

Children are the future of the country and the nation. In August 2020, PFGHL agreed to help two college students who are from Yilong County, Nanchong, Sichuan province, where PFGHL took root and built a factory, and fully

funded the two students until they successfully completed their undergraduate studies. As early as 2018, in order to help local schools improve the conditions for running schools, PFGHL donated 500,000 yuan to build Shifo Township Primary School kindergarten to help ease its financial difficulties. Over the years, PFGHL has continued to provide financial support

to Shifo Primary School in Yilong County for many years to provide a more comfortable learning environment for local students. PFGHL has donated color pens, books and other learning tools to more than 800 students in the school.

As the president of PFGHL, Mr. Hui Yui Sang said, "Caring for the next generation is the first step to realize the

Chinese dream. Only by realizing the Chinese dream can achieve the corporate dream to come true. In the future, PFGHL is willing to carry out public welfare, let the children can study in the better environment."

➤ **Organic silkworm industry contributes to the sustainable development of the region**

Education first and people's livelihood later. Cooperating with the poverty alleviation project in Yilong County, Nanchong City is also an important work for PFGHL to practice public welfare. Yilong County, which is the focus of the state's poverty alleviation and development work, has 285 poor villages with a population of 101,000. In

order to help the government carry out targeted poverty alleviation work and launch the battle of poverty alleviation, PFGHL invested and acquired thousands of mu ( 亩 ) of land in Yilong County to plant mulberry and

build a silkworm seed farm, and supported local farmers to plant mulberry and raise silkworms.

The silkworm cocoons are purchased and operated by PFGHL factory. PFGHL promote

poverty alleviation through industrial

development. At the same time, PFGHL invited a number of silkworm breeding experts to guide local poor farmers to learn scientific breeding technology. Under the leadership of the Sichuan local government, PFGHL promote poor farmers' re-employment and help people increase income. Nowadays, more and more young people are willing to return to Yilong County for employment , they learn organic mulberry cultivation and sericulture technology to promote the sustainable development of sericulture industry.

**Conclusion:** It is the wish of Mr. Hui Yui Sang, the founder and president of PFGHL, to stick to the path of public welfare , actively transfer positive energy and benefit the local people. Mr. Hui also said , “ In the future, we will increase the investment in charity and public welfare, continuously improve the ability and level to fulfill responsibility and actively practice corporate social responsibility with practical actions.”
